KOMU JE SLOVNÍK URČEN?

- předškolákům se zájmem o písmenka;
- začínajícím čtenářům;
- prvňáčkům k pravidelnému tréninku čtení;
- dětem, kterým čtení nejde;
- dětem, které potřebují obrázkovou oporu, vizualizaci.

JAK JE SLOVNÍK KONCIPOVÁN?

Každá dvojstrana začíná lištou s písmenky, ze kterých jsou slova na dvojstránce složena. Bezpečně přečíst písmenka na liště je základním předpokladem k úspěšnému čtení slov. Tréninkem písmen by mělo každé čtení začínat.

Slova jsou řazena podle náročnosti:

- jednoslabičná ze 2 písmen (MÁ),
- jednoslabičná ze tří písmen (MÁM),
- dvojslabičná s otevřenou slabikou (MÁMA),
- dvojslabičná s uzavřenou slabikou (HANKA),
- trojslabičná (jen na poslední dvojstraně, MALINA).

Dvojslabičná a trojslabičná slova jsou zapsána tak, že se střídá vždy černá a šedá slabika, což umožňuje dětem využít výhody „stínového čtení“. Slovo je opticky rozděleno na menší úseky, což zjednodušuje čtení. Slovník obsahuje celkem 440 jednoslabičných a dvojslabičných slov, která mohou tvořit základní databázi slov, jež by měl prvňáček do konce 1. třídy přečíst způsobem, jak se učí ve škole. Trojslabičná slova na konci představují další úroveň čtení – slova víceslabičná.

JAK SE SLOVNÍKEM PRACOVAT?

Slovník dobře poslouží pro zájmové čtení dětí od 5-7 let, ale také pro „čtenářský dril“ a pravidelný nácvik čtení jednotlivých typů slov. Děti mohou slova číst, opisovat, skládat z písmen, ilustrovat, tvořit věty nebo hádanky.
